This index lists the titles of documents under the institution responsible for them. The index is arranged in alphabetical sequence by the name of the university, agency, association, etc. Names beginning with the word "University" have generally been inverted in order to provide a more distinctive entry, e.g. Wisconsin University (for the University of Wisconsin). As shown in the example below, the accession number is displayed below and to the right of the title. Additional information about the document can be found under that number in the resume section.

The symbol // appearing after an accession number identifies a document that is not available from the ERIC Document Reproduction Service and that is not in the ERIC Microfiche Collection.

- Brief annotations outlining the scope and substance of most articles indexed
- Subject, author, journal contents, and main entry indexes

CIJE covers over 700 major journals devoted to all areas of education. Over 20,000 articles are indexed annually—using from three to seven subject headings each. More than 152,638 articles have been indexed from 1969 through June 1977.

You can't read all the educational journals but with CIJE you can keep informed. CIJE makes it possible for you to quickly locate complete bibliographic information, plus interpretive summaries of any article published anywhere in the world on any educational subject.

CIJE is published monthly in cooperation with the Educational Resources Information Center (ERIC), a vital part of the National Institute of Education.

Examination copies of CIJE are available upon request.

THESAURUS OF ERIC DESCRIPTORS—SEVENTH EDITION

This is the definitive vocabulary of education, developed and brought up to date by educators who review the literature in the field. The *Thesaurus* is the source for all subject headings (descriptors) used for indexing and for retrieval of documents and report literature in the ERIC collection. This new edition will include, for the first time, the total number of *Resources in Education* abstracts and the total number of *Current Index to Journals in Education* articles assigned the descriptor. You will now be able to determine, in advance, the extent of your research by knowing the exact number of documents or articles available to you.

The Thesaurus of ERIC Descriptors may be purchased for \$9.95 from Macmillan Information at the address given above.

ANNUAL CUMULATIONS OF RESOURCES IN EDUCATION

ERIC EDUCATIONAL DOCUMENTS (RIE) ABSTRACTS

These volumes bring together, in succinct abstract form, reports covering current, significant topics in the field of education. They provide ready reference to trends and new curriculum developments, school operations, teaching methods, library services, and literally hundreds of other subjects of urgent concern to professional educators. Each abstract cites the author, source, publication date, availability, and price of the original report; and most abstracts provide a clear, concise summary of the report's contents and conclusions.

Included are all reports which have appeared in Resources in Education, a monthly report announcement journal available through the Government Printing Office

Calendar years are bound in separate volumes. 1968/1969/1970/1971/1972/1973/

1974/1975 \$60.00 per volume 1976 (2 vol. set)/1977 (2 vol. set) \$75.00 (per set)

ERIC EDUCATIONAL DOCUMENTS (RIE) INDEX

Gathered for the first time in one source are the indexes to all research documents in the ERIC collection: Research in Education, 1966 through 1974; The ERIC Catalog of Selected Documents on the Disadvantaged; and Office of Education Historical Reports, 1956 through 1965.

These subject-author indexes provide titles and identification/accession numbers to the documents and report literature announced in the monthly issues of RIE. The use of these indexes reduces the number of sources previously necessary for retrospective searching in the ERIC document collection.

1966–1969 (2 vol.) \$70.00 1970–1971/1972/1973/1974/1975/ 1976/1977 \$45.00/volume

ERIC EDUCATIONAL DOCUMENTS INDEX—INSTITUTIONS 1966-1971

This index is an alphabetical listing of all organizational sources of documents and report literature announced in the monthly issues of RIE from November 1966 through December 1971. Also included are titles and identification/accession numbers to all documents cited in Office of Education Historical Reports 1956–1965,

resumes and Catalog of Selected Documents on the Disadvantaged. As a companion to the ERIC Educational Documents Indexes listed above, the use now has access to all major entry points to the massive ERIC data file.

The ERIC data base provides coverage of the significant literature in the field of education research. Report literature (announced in Resources In Education) is covered from 1966 to date, and journal article literature (announced in Current Index to Journals in Education) is covered from 1969. Monthly, quarterly, and annual updates are available for both RIE and CIJE, so that the files may be kept current.

The basic files are available in either the ERIC Format (IBM 360 OS) or in the Library of Congress MARC II Format. LOOK AT ERICTOOLS!

For organizations without access to a computer.* ERICTOOLS provide manual multi-viewpoint access to the ERIC document collection. ERICTOOLS are a series of printed indexes, directories, and crossreference lists, which have heretofore been available only internally to components of the ERIC network. The Title Index provides access by document title. The Source Directory provides access to all organizational names used in the system, i.e., corporate authors and sponsoring agencies. Cross-reference lists lead the inquirer to the accession number (ED number) from: Report Number; Project Number; Contract Number; Grant Number; and Clearinghouse Accession Number.

The documents are available individually and on annual subscription at a discounted price. Prices start from as low as \$10 for some individual documents.

*Many of these documents are also valuable tools for computer searchers.
